PRESENT

OBJECTIVE

Life is very long to do whatever you want to. And that's why I want to utilize my knowledge for *betterment of the society*.

An engineer is an integral part of this world, and *I want to be one of them*. Getting good knowledge throughout my graduation, I want to utilize it as an *effective and efficient software engineer*.

PROJECTS

APP DEVELOPER

TIT&S Computer Society / Dec 2019 - Present

It is a great experience, working as a developer in TCS. I'm working on FLUTTER technology and the app is near its completion. It is the official App of the society and me working as a team member learnt many things.

FRONT END DEVELOPER

TIT&S Computer Society / June 2020 – July 2020

Working in a team you have to be supportive, coordinative and humble. It is the official website of TCS of which I'm a part. I worked on technologies like HTML, CSS, Tailwind CSS to develop it.

DEVELOPER

Own Project / Aug 2017 – Sep 2017

A Matrix problem solver, which will solve all matrix related problems.
