

VIEW POINT

Life is very long to do whatever you want to. And that's why I want to utilize my knowledge for the betterment of society. An engineer is an integral part of this world, and I want to be one of them. Getting good knowledge throughout my graduation as I am in my 3rd year, I want to utilize it as an effective and efficient software engineer.

PROJECTS

APP Developer

Dec '19 - Present

TIT&S Computer Society

Product: It is a great experience, working as a developer in TCS. I'm working on FLUTTER technology and the app is near its completion. It is the official App of the society and me working as a team member learned many things.

Backend: FLUTTER

Frontend: FLUTTER and Android Studio

Database: FLUTTER database

Website Developer

Jun '20 - Present

TIT&S Computer Society

Working in a team you have to be supportive, coordinative, and humble. It is the official website of TCS of which I'm a part. I worked on technologies like HTML, CSS, Tailwind CSS to develop it.
